Quid-Pro-Guo - Inter-generational Education to Ease Global Warmi

Co-funded by the European Union

Step-by-Step Guide

Climate Change Topic	Ecology		
High-tech or Low-tech?	Low-Tech		
Duration of Activity (in minutes)	Suggested time is 1 hour, however, this is individual	**Learning Outcome**	✔ Basic knowledge of the native Maltese trees ✔ Learning English and Maltese names of the native trees
Materials Required for Activity	• Printed or downloaded BINGO SHEET (attached to this document)		
Step-by-step instructions	**Support the re-growth of the pollinator population in your garden by planting native and pollinator-friendly plants in your garden or local area!** In this activity, we will help you to spot the native trees in your neighbourhood as well as connect the younger learners with the older participants. The purpose of this game is to recognise the native trees while also learning their Maltese names. Follow these steps to get you started: 1. Download or print out the attached BINGO SHEET. 2. Create a pair of two preferably based on your residency area (one younger and one older participant) and schedule a meetup for at least one hour. 3. Meet at the agreed spot and go for a walk in your neighbourhood and see how many of these awesome native trees you can spot. 4. Found a whole line? You've got bingo! 5. Do you know the Maltese names? (Perhaps the older participants can help the younger ones here) You got extra points!
