

April to June: Ecology and biodiversity

High-tech - Step-by-step Guide

Step-by-step Guide

Climate Change Topic	Ecology		
High-tech or Low-tech?	High-tech		
Duration of the activity (in minutes)	20 minutes	Learning Outcome	<p>Learners will be able to:</p> <ul style="list-style-type: none"> ● Understanding the impact of food waste on the climate. ● Discover solutions with the help of digital technologies. ● Learn how to use a new mobile app.
Materials required for the activity	<ul style="list-style-type: none"> ● A smartphone with the TooGoodToGo app downloaded. https://toogoodtogo.ch/fr-ch/ 		
Instructions Step by step	<p>Reducing and diminishing food waste helps ecology, taking care of the planet's resources. Here is a mini-guide to help you discover the TooGoodToGo application.</p> <p>We also recommend the Ocean's Zero app for an excellent introduction to zero waste.</p> <p>If you already use one of these apps, what are your other tips to limit this waste? Talk to everyone about your tips and those of others.</p> <p>Step 1: After downloading the TooGoodToGo app, search your neighbourhood or region for restaurants or bakeries offering their unsold items.</p> <p>Step 2: Reserve your basket and meet them at the scheduled time. Pay on-site.</p> <p>Step 3: After your meal, exchange around you to know other people's tips and make them discover your tips!</p>
